

Mjog does it all

The Essential Practice Platform

One intuitive platform for practice staff and GPs. Fully integrated with your clinical system for maximum engagement.

Engage with patients

Use voice, video, SMS, or email to engage with patients.

Reduce DNAs

Our advanced Appointment Reminders can be used for any slot type - reducing 'Do Not Attends'

Built-in video consultations

Use Desktop GP to engage with patients from anywhere via SMS or video.

A clearer inbox

Mjog's intuitive inbox helps clinicians and practice staff keep messages organised.

It's all included

Our one-stop-shop solution enables practice managers and clinicians to engage with patients effortlessly. There's no need for anything else.

Industry leading batch messaging

Practice managers love our easy to use and powerful system, with features like staggered messages to control reception workload.

Flexible appointment reminders

As we're fully integrated with the clinical system, you can pull in any appointment slot type you like and create custom reminders for each one.

Video consultations made easy

Desktop GP, our clinician toolbar, helps GPs engage with patients via video and SMS without leaving the clinical system.
