ABOUT THIS COURSE:

The Financial Management National Diploma Course

focuses on the principles of the accounting industry including how to manage credit, cost analysis, budgets, business management, and accounting as well as entrepreneurship.

This course is available through:

Elangeni TVET College

**Elangeni
College**

Technical and Vocational
Education and Training

COURSE BREAKDOWN:

Management Communication

Learn the different disciplines of communication, motivation, and self-image as tools in the organisation. This module teaches students how to write business communication documents.

Cost and Management Accounting

Cost and Management Accounting teaches learners how to accurately create, plan and execute business related financial transactions and financial statements, budgets and ledgers.

Computerised Financial Systems

Computerised Financial Systems cover the most popular financial systems used in modern industries. Programs taught include but are not limited to; Payroll DOS, Excel and Payroll Windows.

Entrepreneurship and Business Management

Learn the basics of how to draw up a business plan. This module teaches you all the different aspects of starting your own business, by offering a holistic approach to entrepreneurial studies. Once you're accredited, you will be ready to facilitate the streamlining of all business processes while working inside of an allocated budget.

Income Tax

Income tax is the tax rate times taxable income. Students will learn how and why income tax is a tax imposed on individuals or entities dependent on their specific income or profits.

Financial Accounting

Financial Accounting focuses on the summary, analysis and reporting of business-related financial transactions and financial statements and ledgers.

Economics

Economics examines the way that societies interact with value; the production, distribution, and consumption of goods and services. The Economics module studies how economies function and operate.

#GETREADYFORWORK
