

BEAVERFIT™
DAM STRONG

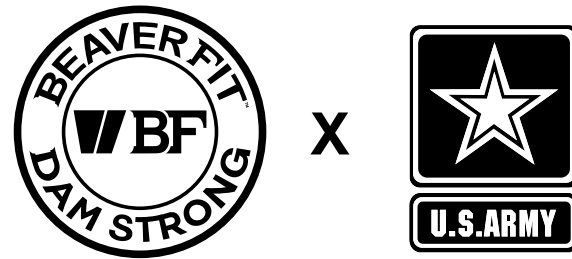

ARMY CAPABILITIES BRIEF

BEAVERFIT™ **DAM STRONG**

BeaverFit supports the success of the H2F Campus and Tactical Requirements with a variety of training solutions:

- ▶ **BEAVERFIT PERFORMANCE LOCKERS + SHADE SOLUTION / UPGRADES:** Supports the H2F outdoor training area containerized strength equipment requirement.
- ▶ **BEAVERFIT ACFT TESTING FIELDS + SHELTERS:** Supports the training and testing for the Army Combat Fitness Test.
- ▶ **BEAVERFIT ACFT STORAGE SOLUTIONS:** Supports H2F outdoor training areas and ACFT testing lanes.
- ▶ **BEAVERFIT ACFT EQUIPMENT:** BeaverFit is one of only two TACOM-approved manufacturers of ACFT equipment. A BeaverFit ACFT equipment kit includes all of the equipment required for a single testing lane.
- ▶ **BEAVERFIT STRENGTH + CONDITIONING CONVERSIONS:** Supports Strength and Conditioning for the H2F initiative.
- ▶ **BEAVERFIT BEAVERDOME + SUNPRO** Supports the H2F Campus and Unit-sized facilities.
- ▶ **BEAVERFIT OBSTACLE COURSES:** Supports Terrain Runs for the H2F Campus.
- ▶ **BEAVERFIT RANGE LOCKER + SHOOTING SOLUTIONS:** Supports the TC 3-20.40 Rifle and Small Arms Qualifications.

BeaverFit designs and manufactures world class human performance and tactical training solutions to support the success of the Human Weapon System.

All BeaverFit products are manufactured in the USA ensuring Buy American Act (BAA) and Trade Agreements Act (TAA) compliance. This guarantees the highest quality product standards are met for our Soldiers. BeaverFit supports all of the equipment and facility requirements for the FM 7-22, Holistic Health Fitness, and TC 3-20.40 Training and Qualification-Individual Weapons.

▶ BEAVERFIT CONTAINERIZED STRENGTH EQUIPMENT

ARMY PERFORMANCE LOCKERS

The Army Performance Lockers combine ACFT specific training modalities with general strength and functional training elements. This hybrid solution is available in 4 different sizes depending on the number of soldiers who need to PT or train simultaneously (8', 10' 20' or 40' containers). These freestanding container gyms allow training in a variety of outdoor areas.

▶ BEAVERFIT CONTAINERIZED STRENGTH EQUIPMENT

BEYOND TRAILER

The Beyond Trailers from BeaverFit provide innovative mobile training solutions for military commands and MWR programs. These trailers feature a patented unfolding fitness framework that can be set up by a single user in a few minutes, with no tools required.

In addition to the standard Beyond Trailer line, BeaverFit has a dedicated ACFT Storage Beyond Trailer to support units that need to take their ACFT equipment to testing sites in an efficient manner.

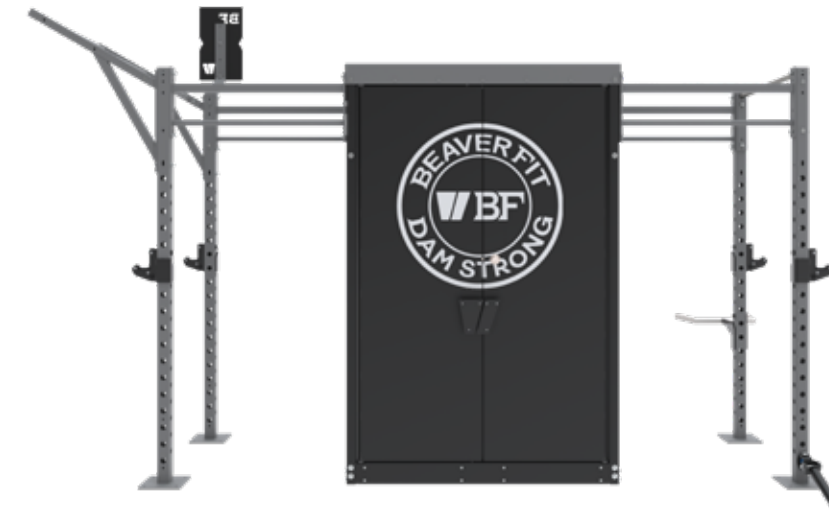

NOMAD 6 X 12

EXPLORER 6 X 20

SHRED SHED

The BeaverFit Shred Shed is a patented, freestanding, multi-use storage shed, custom-fabricated to anchor a BeaverFit functional training rig and store the equipment necessary to create a world class, multi-modality training center.

GYM BOX

The BeaverFit Gym Boxes feature a patented, freestanding design, which attaches a squat rack to a storage box enabling a multi-modality fitness experience within a small footprint.

SINGLE RACK

DUAL RACK

▶ BEAVERFIT ACFT TESTING SHELTERS

These solutions are fully customizable and enable Soldiers to train in any element with a consistent, standardized testing environment. BeaverFit offers fields, open-ended SunPro shelters and fully enclosed BeaverDomes complete with tailored utility packages.

ACFT SHELTER KEY FEATURES:

- 2.5 meter x 25 meter ACFT turf lanes
- Customizable human performance area including:
 - rubber flooring
 - training rigs
 - equipment + accessories
- Integrated storage
- Turf/rubber designed for dropping weights/kettlebells
- Custom branding
- Tensioned fabric structures with post-production hot dip galvanized steel, and fire-rated, rip-resistant pvc fabric

////// BEAVERFIT ACFT STORAGE LOCKERS SUPPORT OUTDOOR TRAINING AREAS, ACFT TESTING LANES, AND TRACK REQUIREMENTS.

▶ BEAVERFIT ACFT TESTING + STORAGE SOLUTIONS

ACFT Storage Lockers and Trailers provide Army commands with a turnkey solution to immediately prepare and administer the ACFT. These lockers and trailers include custom internal storage specific to the ACFT to enable proper inventory management and asset visibility. Lockers can be customized with external training rigs to create a multi-functional testing and training area.

- 1 X SPEAKER BOX

Whether training for the ACFT or training to become the most lethal Soldier possible, these solutions are the best way to prepare, train and execute ANYWHERE IN THE WORLD.

► BEAVERFIT STRENGTH AREA CONVERSIONS: **OUTDOOR**

BeaverFit can upgrade underutilized outdoor spaces into custom training areas catered to the unique requirements of strength coaches and other military fitness leaders.

BeaverFit can convert abandoned tennis courts, basketball courts, parking lots, and open land into tactical strength and conditioning spaces to support programming at all levels.

► BEAVERFIT STRENGTH AREA CONVERSIONS: **INDOOR**

BeaverFit can also convert underutilized indoor spaces into custom H2F training rooms.

We have the capability to transform racquetball courts, day rooms, bowling alleys, warehouses, and vacant office space into tactical strength and conditioning areas.

////// BEAVERFIT OUTDOOR + INDOOR CONVERSIONS FOR S+C BOLSTER THE H2F INITIATIVE IN UNDERUTILIZED SPACES.

▶ BEAVERFIT BEAVERDOME

The BEAVERDOME from BeaverFit offers insulated roofing and walls, HVAC, and electrical systems with lighting.

- Enclosed Human Performance training/testing solution
- Optional HVAC/insulation/lighting available

BEAVERDOME KEY FEATURES:

- Dedicated space for mission specific training
- Fully customizable w/ frame options allowing shelters to be 400 to 40,000 square feet
- HVAC, insulation, and lighting options
- Options to integrate recovery and rehabilitation specific areas
- Unit level training and testing facility
- Protection from inclement weather
- Engineered specifically for install location and environmental factors
- Consistent, standardized human performance training and testing across regions
- Proven expeditionary solution across DOD

**///// BEAVERDOMES
SUPPORT UNIT LEVEL
H2F FACILITIES.**

▶ BEAVERFIT SUNPRO

The BeaverFit SUNPRO is a utilitarian option for those units looking for shelter from the elements for their training and testing, but do not wish to fully enclose the facility.

BEAVERFIT SUNPRO KEY FEATURES:

- Open-ended human performance training and testing solution
- Upgrade existing BeaverFit Containerized Gym Solutions
- Upgrades include performance flooring, lighting and fans
- In addition to cover from rain and snow, shade can reduce temperatures by 10-15 degrees F during hot summer months
- Custom Unit/branch logos available on Lockers, flooring, or shelter

**///// BEAVERFIT SUNPROS
SUPPORT UNIT LEVEL H2F
FACILITIES.**

BEAVER FIT™

SPECIAL OPERATIONS EQUIPMENT

BeaverFit Special Operations Equipment (SOE) enables tactical operations and training with a line of modular, deployable containers, rigs, and complexes.

▶ TRAINING COMPLEXES

- Shoot houses (simunition and live-fire)
- Subterranean trainers
- Combatives facilities
- MOUT villages
- Scenario training lanes

▶ TRAINING TOWERS

- Insertion trainers
- Climbing towers
- Pre-jump trainers
- Incorporation into other training structures/complexes
- Marksmanship towers

▶ RANGE + BREACHING SOLUTIONS

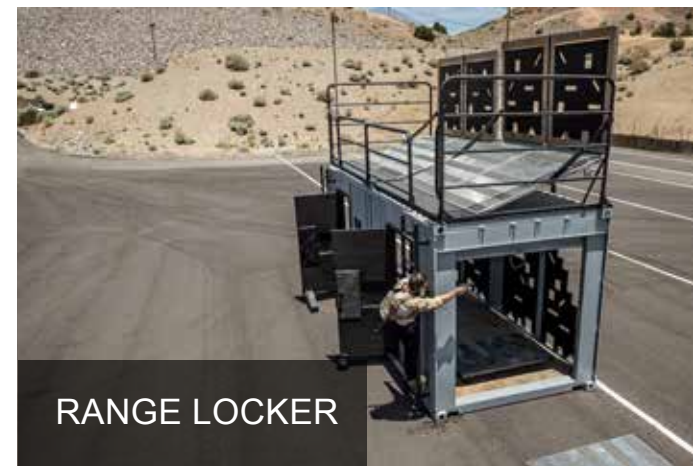

- Customized range structures
- Breaching Lockers
- Mobile range/breaching solutions

▶ OBSTACLE COURSES

- Traditional or terrain-based courses
- Individual or team courses
- Traditional or custom-designed obstacles
- Integration with other training facilities

▶ SUPPORT SOLUTIONS

- Equipment storage
- Vehicle storage
- Ammunition storage
- Sensitive storage (Armory, SCIF, etc.)
- Mobile planning/operation centers

▶ BEAVERFIT OBSTACLE COURSES

BeaverFit Obstacle Courses are designed to assess, develop, and refine the Warfighter's survivability, strength, endurance, and responsiveness.

We develop obstacles based on mission essential tasks with the specific intent of training military personnel as tactical athletes capable of reacting to any situation, with a focus on injury reduction and improving individual lethality.

///// BEAVERFIT OBSTACLE COURSES SUPPORT THE H2F CAMPUS TERRAIN RUN REQUIREMENT.

▶ BEAVERFIT RANGE + BREACHING SOLUTIONS

The BeaverFit Range and Breaching Locker enables next level training for close and medium distance marksmanship. Developed around the "train as you fight" concept, this unique solution includes human performance equipment to create a high heart rate training environment with the ability to manually breach doors, fire from behind barricades, on high-angle pitchable roof platforms, or on removable unstable shooting platforms.

///// BEAVERFIT RANGE LOCKER + SHOOTING SOLUTIONS SUPPORT THE TC 3-20.40 RIFLE AND SMALL ARMS QUALIFICATIONS.

▶ CONTRACTING / PROCUREMENT

BeaverFit is one of two manufacturers on the TACOM approved ACFT equipment fielding. BeaverFit equipment can be procured through several avenues:

- DLA TLS (SOE) Program
- GPC
- GSA Schedules
