The #1 Preconstruction Collaboration Platform

Join

Trusted by innovative builders nationwide.

Less Time – More Wins

Studies show **82% of owners prioritize collaboration** with their contractors. The contractor's process for preparation coupled with ready access to information enables you to collaborate and win more projects.

Join gives you the competitive advantage to win projects by turning this complicated and often contentious process-making step into a collaboration built on information, scenario exploration, and a demonstrated mutual understanding of goals and outcomes.

Always have the answers at your fingertips.

Be prepared with information-driven scenarios.

Gain a strategic advantage by presenting data transparently.

Just 90 Minutes to Win

Optimize your short client interview meetings with Join to demonstrate transparency and collaboration.

Explore Project Scenarios

Understand the options available to reach project goals through data visualization.

Join

Organize for Collaboration

Organize your projects options in one view and focus on collaboration and decision making.

The Join Dashboard keeps the teams aligned on the goals of the project by tracking cost estimates and the target budget over time.
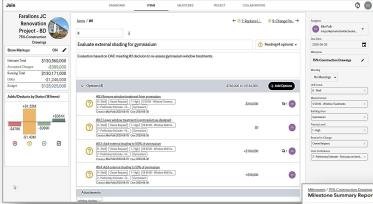

## Align Budgets and Costs

Evaluate Options

Easily evaluate multiple choices without creating confusion through mutually-exclusive options.

Report Milestones

The Milestone Summary Report allows the team to analyze data and create dynamic views to uncover opportunities for delivering exceptional projects.
