

T-MOBILE FOR BUSINESS PARTNER SOLUTION: HOTFI™: 4G LTE ROUTER

SOLUTION OVERVIEW / BENEFITS

The Hotfi™ 4G LTE multi-functional industrial router is rugged, compact, and ready to get to work! It is suitable for mobile and stationary applications and is an ideal business solution built to support T-Mobile's 4G LTE extended coverage bands 12 & 71! Combining stability with performance, Hotfi™ offers a 2.4GHz wireless transmission rate of 300Mbps and large memory for efficiency.

With 4 detachable 5dBi high-gain antennas, it creates wide coverage for high-definition streaming. Multi-network support and lan ports allow the router to safely connect to multiple devices. Hotfi™ is powerful, versatile and advanced to meet the diverse needs of customers.

**MULTI-FUNCTIONAL,
INDUSTRIAL, & COMPACT**

Targeted Verticals

- Retail
