Work, Learn & Stay Connected on the GO!

The Franklin T9 is a LTE Mobile Hotspot that simultaneously supports 15 device connections through built-in Wi-Fi AP. With advanced LTE technology and multi-band support, the T9 provides seamless wireless data connection whenever needed, wherever it goes. The OLED display with unique icons and text panel can provide easy-to-recognize device service status to customers. The stylish pocket-sized and semi-rugged design makes it easy for customers to carry it around anywhere.

Manage Your Staff, Students or Client Devices Remotely!

The INCLUDED Mobile Device Management solution will allow users to remotely manage and configure their devices in the field. The solution is designed specifically for educational institutions, as well as enterprises and small businesses. The cloud-based management platform is secured by 2-factor authentication and industry standard security and protocols.
