### Intro to using LinkedIn for Lead Generation

If you are a coach, consultant, professional service provider or B2B business owner, there is no better place to generate high-quality clients than on LinkedIn, and you'll never have to spend a dollar on ads.

If you're selling a low-priced product or even an online course, then Facebook Ads make perfect sense to fill your funnel. But if you offer a service, especially higher priced services, then LinkedIn is the place to be!

Unlike Facebook, where people are not typically interested in anything business related, the opposite is true on LinkedIn. In fact, people actively using LinkedIn are hungry to learn and to grow their business or advance their career.

There is a better way, a less sales-y, more effective way! It feels natural. Build rapport and establish trust while getting your perfect prospects to say, "YES," to a conversation with you.

Now let's get started.

# Connection Request Message

*This is the message attached to the connection request.*

**Goal:** Have the prospect click **“accept.”**

The question we are looking to answer: **“Why is this person trying to connect with me?”**

## Tips:

- Keep it short
  - Less is **more**
  - Personalize the message
  - Use their first name
  - Be respectful and genuine
  - Find commonality whenever possible
    - Alumni
    - Similar interests
    - Connections in common
- 

# 1st Follow up Message

*This is the first message they receive after the connection request is accepted.*

**Goal:** Build trust & rapport, start a conversation

Cater to their goals, interests and passions. Make it about them.

## Tips:

- Share some gratitude
- Theory of Reciprocity
  - Offer up your network
- Be friendly & conversational
- Ask a question

## 2nd Follow up Message

*This is the message they receive if they DO NOT respond to the prior message.*

**Goal:** Create familiarity, stay top of mind, provide value

Give them insight to who you are, what you do, and how you can add value

**Tips:**

- Ask questions to determine pain points
  - Provide insight about what you do and how you've helped people similar to them
  - Soft CTA
- 

## 3rd Follow up Message

*This is the message they receive if they DO NOT respond to the prior message.*

**Goal:** Schedule a Meeting, move them off of LinkedIn

Confidence is important here, be direct without coming across too pushy or salesy.

**Tips:**

- Gentle reminder / follow up on prior message
  - Remind them you've been connected a few days now
- Keep it short
  - Keep in mind their perspective, "What's in it for me"
- Speak to what problems / challenges they are facing
  - Share information about a solution
- Call to Action: Suggest a meeting
  - Put the ball in their court
  - Offer up a link to your calendar

# Templates based on Approach Style

## Important Note:

When using these templates in your Kennected sequences, make sure to use the correct tag.

For example, in this document we use [firstname] as a placeholder. When copying and pasting a template into your sequence, delete the placeholder [firstname] and replace with the appropriate tag by selecting the button.

In this example, change placeholder [firstname] to {firstname | fallback:"ENTER FALLBACK HERE"}
