

To save time bringing people together

CatchApp Bookings is an intuitive scheduling tool made for professionals and businesses, designed to save your time; on average 5 hours per week.

- Allow your clients to book appointments on your own online Bookings page.
- Powerful 2-way sync with all major calendars - Google, Microsoft, and Apple - meaning you'll never worry about double-bookings, ever again!
- Improve attendance with built-in reminders - Emails and SMS - always keep your clients (and you) informed on upcoming appointments, reducing no-shows massively.
- Customise workflows and connect with your favourite video conferencing tools - Zoom, Google Meet, Microsoft Teams - and major CRMs - monday.com, Hubspot, and Salesforce.
- Create unlimited unique booking pages for your clients, offering different services, locations, and availability.
- Personalise your bookings page to give your clients an excellent experience.
